

**UNIVERSIDADE EUROPEIA
REGULATION
FOR THE CALCULATION OF THE FINAL AVERAGE**

Document Date: 18/09/2018

Rector's Approval: 18/09/2018

Responsibility: Reitor, art. 13º, *al.* ao)

Article 1

Aim

1. This Regulation adopts the European Credit Transfer System (ECTS) for the purpose of determining the final classification of Bachelor's and Master's Degrees.
2. The final classification is expressed by a weighted average according to the number of credits of each curricular unit.

Article 2

Weighting coefficient

To calculate the final classification, the classification obtained in each curricular unit is multiplied by the allocated number of credits in the study plan, determined by the weighted average of the number of credits with a numerical classification.

Article 3

Revocation

This Regulation revokes the Regulation on Weightings and Calculation of the Final Average of the European University.

Article 4

Transitional rule

The Regulation on Weightings and Calculation of the Final Average of the European University may be transitionally applied to students who have started their training under that scheme, if expressly requested, and provided that the application of the said Regulation is more favorable to them.

Article 5

Enforcement

The present Regulation entered into force on 9 July 2018, after hearing the Pedagogical Council and with the assent of the Scientific Council.

Lisbon, 18th September, 2018

Dr. Pedro Barbas Homem

Rector of the Universidade Europeia
